What is Credentialing?

The UnitedHealthcare credentialing and recredentialing process is an industry-standard systematic approach to the collection and verification of a practitioner applicant's professional qualifications.

The credentialing process is based on NCQA standards and guidelines as outlined in the UnitedHealthcare Credentialing and Recredentialing Plan. To successfully complete the credentialing process, providers must meet the baseline criteria as applicable to the Division of Medicaid and Long-Term Care (MLTC) and their practicing specialty.

The Credentialing and Recredentialing plan is accessible via unitedhealthcareonline.com.

To initiate credentialing for UnitedHealthcare Community Plan Provider Network, please call our automated service line at 1-877-842-3210. Please be ready to provide your tax identification number (TIN) or social security number (SSN) and then follow the prompts:

Pharmacy Credentialing

Independent pharmacies begin the process with submitting a credentialing application that includes a complete Disclosure of Ownership and Control Interest Statement Form, credentials and applicable information.

The **credentialing application and contract packet are sent out** together with instructions for completion by the pharmacy.

All pharmacies are **credentialed pursuant to the administrator credentialing policy**.

The pharmacy contract is finalized after the application is reviewed to **verify proof of credentials**. Review includes, but is not limited to:

- Copy of current/valid state licenses (including DEA) with expiration dates
- Federal Tax ID permits
- Insurance showing adequate coverage
- Copy Wholesale Invoice/Drug Purchase Packing Slip
- NCPDP
- Ownerships and affiliations
- Attestations related to disciplinary actions, convictions, restrictions and any other adverse actions
- Most recent inspection date by the Board of Pharmacy
- Office of Inspector General (OIG) list of excluded individuals and entities

Pharmacy Credentialing

Pharmacies are credentialed to insure **compliance with professional standards** that include but not limited to:

- 100% point of service capability and ability to use electronic link
- Adequate hours of operation
- Maintain verifiable record of refill authorizations and signature logs
- Allowance of on-site audits
- Agree to comply with all Drug Utilization Review (DUR) and plan design parameters

The standard **turn around time for completion is 7 business days** or less.

All pharmacies are **re-credentialed at least every three years**.

Our contracts with chain pharmacies and Pharmacy Services Administrative Organizations (PSAO) delegate credentialing for all pharmacies within their organization. We contractually require the organization to maintain a credentialing program for itself and member pharmacies.
